

# WHMIS

⌚ Duration : 90min

FRENCH

ENGLISH

SPANISH

WHMIS is consistent with the « workers' right to know » according to which workers must know the nature of the hazards found in the workplace and the related control measures to be taken.

In Canada, the current legislation in occupational health and safety requires that workers be informed of the risks they may encounter in the context of their employment. WHMIS therefore provides employers and workers with an additional tool to enable them to increase their knowledge of hazardous materials.

## ⌚ Target audience

It is intended for any person exposed, directly or indirectly, to hazardous materials in his/her workplace.

## ☰ Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.

## 🔗 Legal notice

There are no legal notice associated with this training. No other training or experience is required.

## 🔗 Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of SSTenligne invites you to respect the integrity of the training and its questionnaires.

We suggests you answer to the best of your knowledge, that is, without help and without plagiarism.
