

Slips, trips and falls

🕒 Duration : 30min

FRENCH

ENGLISH

SPANISH

Regardless of the type of business or industry, many workplace injuries are caused by slips, trips or falls. This category of accident is a nebulous one, since there is often no foreseeable danger for which one could have been prepared.

With this in mind, it's important for every company to propose an appropriate prevention approach to reduce risks, or even eliminate them altogether.

🎯 Target audience

She is intended for all members of the hierarchical line, such as internal and external workers, technical staff and tradespeople.

☰ Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.

🔑 Legal notice

There are no legal notice associated with this training. No other training or experience is required.

⚖️ Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of SSTenligne invites you to respect the integrity of the training and its questionnaires.

We suggests you answer to the best of your knowledge, that is, without help and without plagiarism.
